CORE ARCHITECTURAL BIM SERVICES

We revolutionize traditional architectural services with BIM, offering a more collaborative, efficient, and data-driven approach to design and construction.

WHO WE ARE

Welcome to **Capstonees**, where innovation meets expertise in architecture, structure, MEPF, and industrial services. With a proud legacy spanning over 17 years, we have emerged as a trusted partner for industry giants like Specon, Petrofac, TechnipFMC, AECOM, and Dodsal. Our journey is marked by a relentless pursuit of excellence, delivering top-notch solutions in architecture, building, house exteriors, renovations, and industrial projects. We are now serving clients across USA, India, KSA, and Dubai.

CAPSTONE
Engineering Simplified

Concept Design & Design Development::
We create 3D models for early design exploration, allowing clients to visualize spaces and make informed decisions.

Documentation & Construction Drawings:
With BIM, we generate accurate and coordinated construction drawings (floor plans, sections, elevations) directly from the 3D model, minimizing errors and rework.

Quantity Takeoffs:
We extract material quantities directly from the model for accurate cost estimation and material procurement.

Model-Based Scheduling:
We utilize the BIM model to create and manage project schedules, visualizing the construction sequence and identifying potential delays.

Facility Management:
Our BIM model becomes a valuable asset for facility management, aiding in space planning, maintenance tasks, and future renovations..
